

OPERATING REPORT FOR THE PROGRAMME "LET'S HELP THEM TO HEAR!" AS AT 1 DECEMBER 2017

Thanks to the considerable generosity of donors in previous years, this year we continue to delight kids by presenting them with quality hearing aids and auxiliary hearing appliances.

This year, 38 children started the school year with new hearing aids and auxiliary hearing devices that will allow them to hear their teachers and classmates better, learn the new semester school materials more successfully and take an active part in outside class activities.

The ABLV Charitable Foundation's programme "Let's Help Them to Hear!" has been in existence since 2007. To date, under the auspices of this programme, we have presented hearing aids to 400 children worth a total sum of EUR 779,647. Hearing aids are bought without a markup and with significant manufacturer's discounts. Hearing aid prices depend on the model, for a single model they range from EUR 954 to EUR 1,090. In most cases, one child is given two hearing aids. The report on the results of our work is updated once every quarter.
