

2016 ANNUAL REPORT FOR THE PROGRAMME "LET'S HELP THEM TO HEAR!"

Thanks to the considerable generosity of donors in previous years, this year we continue to delight kids by presenting them with quality hearing aids and auxiliary hearing appliances.

This year, 97 children received gifts from the Foundation in the form of new hearing aids and auxiliary devices. In the history of the programme, this is an all-time annual record in terms of the number of children that we were able to help. Each of them has their own life story, interests and aspirations, and we hope that with the help of the new hearing aids, each of them will be able to successfully move closer to the fulfilment of their dreams.

The ABLV Charitable Foundation's programme "Let's Help Them to Hear!" has been in existence since 2007. To date, under the auspices of this programme, we have presented hearing aids to 362 children worth a total sum of 678,989 EUR. Hearing aids are bought without a markup and with significant manufacturer's discounts. Hearing aid prices depend on the model, for a single model they range from EUR 954 to EUR 1,090. In most cases, one child is given two hearing aids. The report on the results of our work is updated once every quarter.
