2014 ANNUAL REPORT FOR THE PROGRAMME "EDUCATIONAL PROJECTS WITH CULTURAL CONTENT"

In 2014, the Foundation established a new programme "Educational Projects with Cultural Content", which mainly involves the provision of advisory and financial support for educational programmes run under the auspices of the contemporary art exhibitions and events that can be attended by classes of schoolchildren free of charge. For those most eager to learn, we have created an opportunity to expand their knowledge in masterclasses given by vocational specialists from all over the world. Under the auspices of the programme, this year we have supported three projects, two of which will continue in 2015 and 2016. The report on the results of our work is updated once every quarter.
