2015 ANNUAL REPORT FOR THE PROGRAMME "EDUCATIONAL PROJECTS WITH CULTURAL CONTENT"

In 2014, the Foundation established a new programme "Educational Projects with Cultural Content", whose objective is to facilitate public understanding of contemporary art, its contents and form. With the assistance of this programme, we wish to encourage understanding among not only children, but also adults, about the museum as a captivating and stimulating environment for development. We support the development and creation of educational games, which stimulate creative thinking in children. Under the auspices of the programme, two projects that received funding in 2014 are continuing to take place both this and next year. The report on the results of our work is updated once every quarter.
